**Group Discussion on “Industrial Liaison Development”**

**Recommendations by the group discussion:**

1. Department should provide details of facilities which can be provided to industry that will help industry-academia mutual interests.
2. Industrial liaison should be developed on departmental level.

3. Visit of faculty to industry and vice versa should be arranged. These will provide a good bridge of commitment between both sectors.
4. Encouragement of industry persons by calling them for lecture, seminar and events.
5. Suggestions put in a meeting by members should be summarized and the progress of same should be discussed in next meeting.
6. Supervision of industry personals will help in final year thesis projects as well as in solving industrial problems.
7. Periodical Newsletter must be published and posted through E-Media.
8. Data base of graduates should be maintained and collected to strengthen MUCES.
9. Experts from industry should contribute for the Syllabus of bachelors and masters level through participation in Board of Studies of the Chemical Engg.Deptt.
10. MUCES should organize career counseling for final year students that will make them capable for professional life.
11. University should invite CEO,M.D,G.M and stake holders of industries in Convocation and provide them list of top 20 graduates of passing out batch.
12. There should be a technical group in department that should resolve the problems of graduates who are working in industries and hunt projects also.
13. All Chemical Engineers must be invited in MUCES meetings regardless of Alumni.
14. There should be a membership Campaign annually to enhance the members of MUCES.
15. Group should be formed on social media that should update about information to MUCES members.
16. There should be one lecture per month by industrial personals in department for all students.
